## **A note to contributors**

### **Style sheet**

Manuscripts should be in MLA style. The first page should include the title, the author's name, affiliation, mailing address and email address, along with an abstract (less than 150 words) of the article. Five keywords should be listed at the end of the abstract.

### **Proofs**

First proof will be sent to the lead author (or a nominee), who will be expected to return corrections to the Editor by e-mail within three days of receipt.

Submission of an article is taken to imply that it has not previously been published or is not being considered for publication elsewhere. If an author is publishing a related article elsewhere, this fact should be stated. No free offprints will be provided, but all authors of articles will receive a free copy of the issue in which their contribution appears.
